EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE SPECIFICATION:

In the specification change to page 1 set forth on page 2 of the amendment dated 12/19/2005, in the third line of the text, after the term "2001", the following phrase was inserted --, now U.S. Patent No. 7,117,211-- to provide an update to the continuing data.

EXAMINER'S COMMENT

2. The terminal disclaimer filed on July 10, 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent Application No. 09/965,359 has been reviewed and is accepted. The terminal disclaimer has been recorded.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

With respect to each of claims 1, 9 and 16, the prior art of record fails to teach or fairly suggest a method of determining a number of plates to be used to print a

predetermined number of labels having all of the method steps as recited, in combination with and particularly including, determining a total number of times that each of the determined minimum number of plates must be run to print the predetermined number of labels, comparing the total run time number to a reference number to determine whether to increase the number of plates to be used to print the predetermined number of labels, and displaying information representing the number of plates to be used to print the predetermined number of labels.

Note the previous comments set forth in the Office Action dated September 22, 2005 regarding the reason for indicating claim 23 is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
